

Introducing the **NEW** Modern Life Skills Academy for Students The University of Life - FREE TASTER SESSION

Students are taught and learn how to pass exams, and in recent years have learned what examples of core competencies (such as leadership, team working etc) are needed to pass assessment centres. In other words they have learned how to get a job but not how to really excel once they get into the workplace, with the majority having no awareness of the skills that are needed to succeed in today's' challenging and ever changing world of work. They are however fully aware of the fierce competition within the internship & graduate marketplace so they want to really stand out in the crowd.

Why not harness this ability, the desire to learn, and teach them how to succeed in the workplace as part of **your recruitment strategy?**

Working in partnership with Bright Futures, The Learning Architect, in collaboration with key experts, have researched the key skills required for individuals to cope with modern living. Our Modern Life Skills Academy is based on the UNESCO model and will equip students with essential life skills including:

- Emotional Resilience
- Self Awareness
- Assertiveness
- Change Ability
- Creativity
- Goal Setting

Graduate Recruitment Professionals are invited *free of charge* to come along to this one day event to find out more about how this approach can help you and your graduates:

About your hosts:

Bright Futures

Bright Futures are a Graduate Campus Recruitment Strategy and Service Provider and deliver bespoke solutions. ON-CAMPUS.....they set up and facilitate Bright Futures societies at over 35 UK universities including Manchester, Nottingham, Exeter and Durham that enable our corporate investors to:

- Identify and target talent in all year groups and all degree subjects long before your competitors do
- Increase your organisations 'reach' into more Universities with no extra effort
- Improve your brand profile year-round amongst the most motivated students
- Reduce the cost of your on-campus attraction activities
- Collaborate with student members want to actively engage and work with you
- Drive down the number of unwanted applications you receive and increase the number of good ones!
- 'Do more with less!' We give Investors the tools to market themselves effectively on and off-campus with fewer budgets and less manpower required
